

# EURO STOXX Sustainability Index\*

June 2010

## Objective

The EURO STOXX Sustainability Index\* (ESTX Sustain\*) captures the Eurozone companies out of the STOXX Europe Sustainability Index which in turn includes the top 20% in terms of sustainability based on long-term economic, environmental and social criteria from the STOXX Europe 600 Index. Components are selected according to a systematic corporate sustainability assessment that identifies the sustainability leaders in each of the 57 sectors. The underlying research methodology accounts for general as well as industry-specific sustainability trends and evaluates corporations based on a variety of criteria including climate change strategies, energy consumption, human resources development, knowledge management, stakeholder relations and corporate governance. While no industry is excluded in the selection process and in the composition of the EURO STOXX Sustainability Index\*, subsets of the index provide investors with the possibility to apply filters against certain sectors.
